## Personal

I spend my life at home usually before my computer working on my projects, supporting some web communities, helping people and give advice on everything between heaven and earth.

I am interested in martial arts and have a blue belt in judo.

I am also an active gamer on both the PC and PS3 platforms.

## Work Skills

I have used computers since -85 i have learned a lot since then.

I am proficient in 3d modeling , UV-mapping, animation, texturing, photo editing. I have been working with game design and level design for a couple of years and feel pretty confident in my work.

I have also been programming computers since 1995 in various languages and i have focused on real time graphics, specifically using the OpenGL API.

I can use Lightwave, Maya, Photoshop, GTK-radiant, Adobe premiere, MSVC++ 6.0, MS office and various other pieces of software pretty well, i also have an easy time of learning new software and workflows.

I am a team worker, and can work at any level in a project Environment and trough my military service i have great leader skills as well as the ability to take orders.

## Education and work

**JUN05 – CURRENT**

**FREELANCE**

During the last few months i have been working on some of my own projects and i have also been doing some freelance work.

**AUG02 - JUN05**

**UNIVERSITY**

3 years of studies on gsCEPT (Gaming studies, computer entertainment and production techniques) at Luleå university.

The studies included 3d modeling, real time graphics, level design, character animation, storyboarding and various computer game projects.

I specialized in 3d modeling, level design and game design.

**JUN00 – APR01**

**MILITARY SERVICE**

I served in a recon unit for an artillery command company from A8 (Later ARTBAT/I19) in Boden for 10 months, i did the special guard duty education there.

I also did one week of Royal guard service at Stockholm castle in late August 2000.

**DEC99 – MAY00**

**KANALSKOLAN**

I worked as a computer teacher and admin at a local school for half a year.

**AUG96 – JUN99**

**SENIOR HIGH SCHOOL**

I studied computers and electronics at Kaplanskolan in Skellefteå, for 3 years.

During my studies i learned things like network administration, microcomputer programming and various forms of electronic repair.
